**Tuesday September 22, 2009** I blogged about MNV @ 10:11am on the Canadian Stock Alerts blog when the stock was at .30 . MNV has been on a roll for two days now based on yesterday's news.

You can see from the chart how it just couldn't make up it's mind around the .29 and .30 mark . By 1:30pm it was testing mid .30's and .40 by 2:00pm

The volume made trading easy today. Even if you didn't buy at the low or sell at the high, there was lots of room to have had a great profit day.
